

**schedule NOW!** "Just to say, I DID IT!"

And you can do it, too! You can schedule by either...

Calling **785.840.JUMP**

Going online to

[www.skydivekansas.com/firstjump](http://www.skydivekansas.com/firstjump)

Or, mail this completed form with your **deposit** (cashier's check or money order) for \$40 per person plus \$10 per photographer reservation made out to **SKYDIVE KANSAS**

**1613 E. Laing, Osage City, KS 66523**

We will call or email you to confirm your balance & time slot. *We do not accept personal checks.*

Name(s) of Jumper(s): (please indicate weight)

Email:

Phone: ( )

Do you want to reserve a photographer for video/still photos?

NO  YES (add \$10 per person)

Choice of Date:

NOTE: open weekends. For groups of five or more, we may be able to accommodate a weekday jump - call first.

Choice of Time:  8:00am

9:30am  2:30 pm  4:00 pm

Choice of Rain Date:

(backup date only, not a guaranteed slot)

By signing you verify that the person intending to jump is **at least 18 years old and weighs less than 220 lbs.** You also verify that you understand this \$40 deposit is **not refundable** without exception and is only transferable to a different date if weather does not permit the skydive. Your \$40 deposit goes towards the cost of the jump, which means you pay \$40 down and owe a balance when you show up for your jump. Call or go online for the most current prices. **You will lose your deposit if you do not show up at your scheduled date and time, are not 18 years of age or older, or weigh over 220 lbs.** You do NOT have to put a deposit down in order to skydive. When you show up at the DZ, bring a PICTURE ID with your Birthdate on it. We WILL card you. And we WILL weigh you. *Prices subject to change without notice.*

If you like these top ten reasons we have a shirt for sale featuring them!

## LOCATION & history

Since Skydive Kansas opened its doors October 8, 1995, we've made over 24,000 safe skydives, taking people from almost every county in Kansas, 40 other states, and 14 other countries. **"There is no such thing as a perfectly good airplane!"** (But ours come pretty close!) We operate two Cessna 182's with extended wing span for improved climb rate. We're open weekends year round, and some summer weekdays. **"I don't like the way the pilot lands!"** Each member of our staff meets a high standard of qualifications and abilities that exceed those set by the USPA and the FAA. Our pilots hold commercial ratings; our instructors & coaches have cumulatively over 6,500 skydives and over 100 years of experience.

We are located at the Osage City Municipal Airport, Osage City, Kansas, on the East side of town in the red hangar.

**Skydive Kansas**  
1613 East Laing  
Osage City, Kansas 66523

We're 30 miles South of Topeka; 50 miles Southwest of Lawrence; 30 miles West of Ottawa; 40 miles North of Burlington; 35 miles Northeast of Emporia; 35 miles East of Council Grove; 140 miles East of Salina.

**OVER 24,000 SAFE SKYDIVES since 1995**

**WHY would ANYONE jump out of a PERFECTLY GOOD airplane?!!**

**go ahead... look inside for our top ten reasons**

*our top ten reasons IF YOU DARE!*

# TANDEM first jumps

**"Somebody has to make sure gravity still works."** Is that somebody YOU?! Are you at least 18 years old and weigh 220 lbs. or less? If you're UP for it, call, email or go online to schedule or get more information.

**"I promised my mom I wouldn't."** Well, call her up; maybe she'll come with you! We have group discounts available, as well as discounts for scheduling ahead, college/university students, and active duty military.

**"It's more fun than jumping into a perfectly good airplane."** Or maybe not? During the 20 minute plane ride, you can see both Melvern and Pomona Lakes & the patchwork quilt of Kansas farmland. Then, **"The door was open."** Yes imagine, flying above the earth at 10,000 feet, the door of the airplane opens. That's when it really hits you: "What was I thinking?" Your personal tandem freefall instructor that you are harnessed to says, "Ready, Set, Go!" **"I didn't jump, I just fell!"**

And there you are, falling towards the earth at 120 miles per hour for over 35 seconds! Will you remember those 30 minutes of training? Do you know what altitude you're at? Will you pull the ripcord? With an open canopy by 4,000 feet, you and your instructor enjoy a 5 to 7 minute glide back to earth where you can go crazy and spiral, or just take it easy and enjoy the view.

After the precision accurate landing, your feet back on the ground, you ponder, "Who am I going to call first?"

**"It was a double dog dare and you just can't turn those down."** So to prove you did it, you can have an aerialist photographer--with specialized photographic equipment--fall with you in freefall and record your jump! You get both video and still photographs! We dub your digital footage onto a high quality VHS tape or to DVD. You get a roll of at least 24 negatives, mostly of your freefall as a cameraman flies right with you in freefall, capturing every moment from only a few feet away! You get the undeveloped film as soon as you land! You own the rights, so you can copy or make prints at will. Can you imagine how that enlarged photo will look, hanging in your office?

# FREEFALL photography

Skydive Kansas

Osage City, Kansas 66523

# GET YOUR license

**"I had to find a replacement for my nicotine addiction."** You may have heard that the adrenaline rush is addictive, and if that's true for you, we can help you earn your basic skydiving license from the United States Parachute Association. And yes, your first jump counts! By your fourth jump, you will be under your own gear with an Accelerated Freefall Instructor at your side during your freefall from 10,000 feet. Then, USPA Coaches guide you all the way to mastering your skills in the air! Our innovative training program is unparalleled in individual attention and quality of material. We use personalized one-on-one instruction for every training session! In addition, you get support materials to help you learn...

online training, handouts, and FREE video of your Phase Two jumps! This comprehensive training method is based on

USPA's SIM ISP Program and exceeds their standards.
